

Project Sambhav Jan Vikas Samiti Uttar Pradesh, India

Presenter- Hira Nand Project Officer Project 'Sambhav'

Societal Problem and Our Intended Impact

- Deliver High Quality Services
- Robust follow up
- Reduced Cost burden on families

Intended Impact

Expanding partnerships in South Asia and Africa

- Establish/ Build Systems and Processes making costs affordable
- Evidence Based Policy Advocacy

What We Plan to Do

Social Problem

Children with Disabilities of South Asia and Africa have poor access to rehabilitation services. As per WHO, up to 57% persons with disabilities are unable to afford healthcare including rehabilitation services

Our Insight

Affordability is fundamental to accessing rehabilitation services and telerehabilitation provides cost effectiveness, quality control and overall robust system to delivering services.

Our Solution

PREPARE

Adapt systems, services, protocols for expansion and scale up appropriate to different regions

Our Solution (cont..)

Creating Value for Stakeholders

Beneficiaries

- Quality Services
- Trained professional
- Reduced Cost burden; Minimum Impact on Livelihood
- High Satisfaction rate

Partners

- Tested, Refined Model for Adaption
- Cost Effective; Enhanced Reach and Impactful
- Focused on Sustainability
- Platform for Global Sharing

Funders

- Evidence of impact.
- Transparent, Fully Functional Model

Our Solution (cont..)

* Based on progress report & toolkit for measuring effectiveness
