Jan Vikas Samiti has the network of 404 SHG groups in rural areas of Uttar Pradesh owned and operated by more than 5245 women.

Jan Vikas Samiti is one of the largest partner network of 86 Organizations covering the breadth and width of North and Northeast India and Nepal empowering 6746 children and youngsters with disabilities.

# Vikas for Everyone

We have been in the forefront of the social sector in North India for the empowerment and development of the marginalized and vulnerable groups of the society with special focus on women, children and dalits. We started our journey in 1997 with a prime focus to ensure gender assertion, equality and rehabilitation services to children and youngsters with disabilities in the remote and tribal areas, primarily targeting the poorest section of the population.

## Vision-

To build a just inclusive Humane society based on the values of Equality, Justice, Freedom and brotherhood.

## Mission-

Empowerment of the marginalized people of the society, especially the Dalits, Women, and Children through a process of awareness organization for collective actions and advocacy for raising Political, Educational, Economic, Health, Status and promotion of Environment.

## From Director's Desk

The vision of JVS is the formation of an inclusive, just and humane society based on the values of equity, justice, freedom and brotherhood. We firmly believe that this is the cause that we should stand for and envision a world where all people are cared for, everyone's needs are met and everyone is respected and valued. We believe that our call is to make this vision a reality. At JVS all our programmes are focused on the most vulnerable

and marginalized sections of the society, working through direct communities and other intermediary partners to bring them help and hope to improve the quality of their life.

I am greatly honoured to share with you the Annual Report of Jan Vikas Samiti, 2017-18. This was an interesting year for us as we have exponentially scaled up our operations in parts of rural Northern India, impacting more than 20,000 people. An exciting project, Tele- Rehabilitation is commenced from this year, which will capacitate CBR facilitators on rehabilitation diagnosis, making custom made treatment/rehabilitation plans and providing appropriate therapies to the children and youth with disabilities who are most in need in the rural parts of North and Northeast India.

JVS acted as the first Chair of LINC – Asia, an alliance of all strategic partner organisations of Liliane Foundation. As an alliance our first effort was the promotion of inclusive education, keeping in mind to promote SDG goal 4 of Quality Education and the joint venture for an inclusive society where all Children with Disabilities can enjoy their human rights in a dignified manner.

Another new area of intervention that JVS has entered into is awareness creation and testing of HIV/AIDS. Project Sahya has been launched this year to contribute towards the national goal of 90-90-90 targets through (1) Online based interventions, (2) Community Based HIV Screening (CBS) of High Risk Groups HRGs<sup>2</sup> and At-Risk Groups (ARGs), and (3) HIV screening of the female partners of HRGs and ARGs.

This year our focus was to increase the quality of our programmes and projects. Our teams across India spent quality time together to introspect and analyse our programmes and projects to come up with sustainable innovative models to adapt, improvise and expand to the changing conditions in the society. We have also set up a Strategic Management Committee to monitor, evaluate and improve the quality of services.

We are making a difference. We are connecting to communities to alleviate injustice through a clear right - based approach. The best way to help someone in need is to stand with them in their place of need and empower them. This is the one reason why JVS works through professional, accountable partners who work with and through local communities. They operate at the point of need and from within the need. And we believe, this is the recipe for a truly sustainable development.

I also wish to share with you a pleasant piece of information, namely, JVS is getting a new Director in the person of Fr. Chandran Rymonds, better known as Fr. Chetan IMS and Assistant Director in the person of Fr. Satish Augustine IMS. Both of them are professional social workers and have had long and rich experience in working with women, children and other marginalized sections of the society. I am more than hopeful that with their vast experience in the development sector and skills in networking and advocacy, they will take JVS to greater heights. The JVS family welcomes you, Frs. Chetan and Satish. I wish you every best. Let me also take this opportunity to thank everyone related to JVS for the magnanimous and unstinted support given to me in the past years in carrying out my responsibilities and service to the less privileged in our society.

An extra special word of thanks is due to Liliane Fonds for giving JVS the status of a strategic partner and working closely for the organizational development of the organization itself.

My colleagues and I are immensely grateful to all our corporate, institutional, governmental and individual partners for their generous support and assistance to build an inclusive humane society and empower the marginalized sections of the society. We aim to continue the effort in the coming years to adopt evidence based strategic planning and bring about measurable outcomes.

Fr. Alex Philip IMS  
Director

# Educational Initiatives

## A campaign on education for all “We Ring the Bell”

**“All Children are welcome to school including children with disabilities.”**

The 'WE RING THE BELL' campaign, 2018 has been successfully organized by Jan Vikas Samiti in 9 different schools on 21<sup>st</sup> March. In all 3165 children actively participated in the campaign to spread awareness on inclusive education and social acceptance of children and youngsters with disabilities. The children made loud noise using mikes, steel buckets, drums, plates, bells etc. to call attention of the public and sensitize them on the necessity to enroll children with disabilities in the education system and ensure inclusive education.

Muskan is an educational initiative by JVS to ensure easy, affordable and appropriate educational access and social development of the most marginalized children with multiple disabilities. Twenty five children with multiple disabilities receive intervention in our Day care centre. Our intervention strategy include audio-visual learning, therapeutic intervention, yoga classes, activities of daily living training, provision of nutrition and social inclusion. Though we impart a special education, we also believe in inclusive learning; hence the children attend three days of regular schooling so as to ensure their inclusive learning. There is a great satisfaction in sharing that through our regular intervention 18 children are being helped attend regular school.

## Blossom- Ensuring Higher Education

Blossom is an educational initiative by Jan Vikas Samiti to raise and save educational fund to ensure the future higher education of 100 poor children from the villages of Harhua block in Varanasi District. These selected children are motivated to save Rs. 50/- per month and a matching amount is added to their amount from JVS through the support of BREAD-Noida. This sum will be used for their higher education which their parents find hard to pay for due to poverty and other factors.

## Mother's care

Through Mother's Care programme we want to see the poor and marginalized children from this area go from primary school through university.

To address the needs of the marginalized children JVS with assistance from BREAD-Noida helps 40 children for educational intervention. Through this specific intervention, we have made a telling difference in the lives of 63 children who have successfully completed their 10<sup>th</sup> grade and are continuing their education.

# Inclusive Development of Children and Youngsters with Disabilities

## Early Intervention Programme

As we know, disability and poverty are closely interlinked, however, the condition of disability can be changed if the child is diagnosed during his early stage of life. Working for the cause, Jan Vikas Samiti has reached out to the unreached and disadvantaged communities to provide health and rehabilitation service. Through our community based rehabilitation services, we have identified 95 new cases with different disabilities. We have succeeded in changing the physical conditions of 64 children through our early intervention programme. We provide occupational therapy, physio-therapy, speech therapy, medical assistance, surgeries, parents and caretaker training etc. As a result, early intervention has created a great impact on parents, families and communities at large.

## Inclusive Education

Even when India makes huge progress in the field of Education with Sarva Shiksha Abhiyaan, rights of persons with disabilities (RPwD) Act 2016, etc. inclusion of children with special needs is still a challenge. Jan Vikas Samiti consistently pursues this aspect for the last 12 years and ensured enrolment of children with special needs and their right based education. As per the current data, we have 174 children studying in regular schools. 9 youngsters have obtained bachelor degree, 12 have passed out 12<sup>th</sup> grade and 23 children are completing their 10<sup>th</sup> grade.

- 174 Children enjoy learning in regular schools
- 9 youngsters obtained degree
- 12 youngsters have completed their higher secondary in the regular schools
- 23 Children have successfully completed grade 10

## Therapeutic Intervention for CwDs

### We make difference

57 Children receive regular institution based intervention

257 Children receive home based intervention

Changed the condition of 9 children, registered them to mainstream school

JVS has a team of therapists who provide institutional and home based intervention on a regular basis. Fifty Seven children avail regular institution based therapies while 257 children and youngsters receive home based interventions. The dedicated service of the JVS team made a transformative effects in the lives of children with disabilities. We are happy to state this year we were able to change the condition of 9 children and enroll them in for educational intervention.

## Making Schools Accessible for Children with Disabilities

Physical accessibility in schools, toilets and classrooms are the primary barriers that lead to drop outs from schools. Taking the lead to address these needs JVS conducted an access audit in 4 government schools of Harhua Block as a pilot study. The study proved that no school has followed accessibility standards as per the Govt. of India for the disabled friendly learning. Working for a change we have made 4 accessible toilets in 4 schools. This gave a sigh of relief to 16 children studying in these schools. CwDs feel that they are welcomed in school and accessible disable-friendly education is provided to them.

## Medical Assessment Camps and Provisions of Assistive Devices

In taking steps to ensure that every vulnerable child has affordable access to health care facilities, JVS has been conducting medical camps for the children and youth with disabilities at the premises of JVS in collaboration with Kiran society, Varanasi. Six camps were conducted in which 491 children were assessed and provided with regular follow up and medication. Through these medical assessment camps 121 children received assistive device like, crutches, calipers, and artificial limbs, etc.

- 491 children and youngsters were assessed and provided intervention
- 120 children are helped to avail assistive devices

## Community Health and Hygiene

## Ensuring safe Motherhood through Mothers' Training and Institutional Deliveries

Through Safe Motherhood training we make sure that women get immunization during the pregnancy period, go for monthly check up and take polio acid tablets. They are provided nutritious food and provisions through Anganwadi and encourage them for institutional delivery. As a result of the efforts we are witnessing significant changes in the project targeted areas. JVS organized 3 trainings and have covered 235 young mothers to have a clear understanding on the concept of parenting and also have spread awareness to promote institutional delivery. This year we have recorded 382 institution deliveries with our efforts.

## Training on Reproductive Health Care

JVS complement the existing government structures by promoting and strengthening the capacity of key leaders like ANM, Asha and Anganwadi-workers. Seven awareness camps have been organized to help the people to understand, the importance of reproductive health care. There were 435 women leaders who attended the training camps to spread awareness in the villages to deal with various problems affecting the health of young women and adolescent girls in the focus areas.

435 SHG  
leaders were trained  
through 7 training  
programmes

## General Health Camp

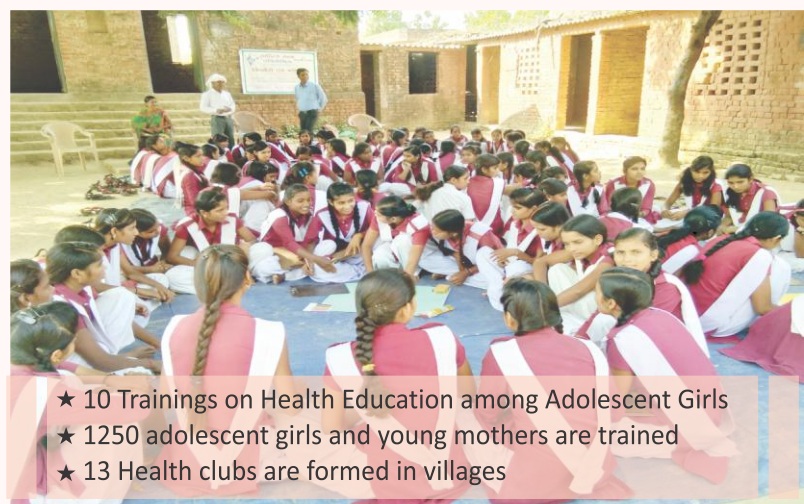

- + 12 General Health camps were conducted in 12 Panchayats of Harhua
- + 1493 people are examined and provided with medication
- + 739 people received further intervention and recuperated

JVS with the support of Manos Unidas organized general health assessment camps. During the last one year we organized 12 general health camps in collaboration with St. Mary's Hospital. We have got 1493 people examined and helped them with medication and referred serious cases to St. Mary's Hospital. The women are given special importance and are given proper medication to assure them good health. We have been successful in helping 739 people with diagnosis and helped them to recuperate from their sickness.

## Awareness Programme on Promotion of Health Education among Adolescent girls

We have organized 10 trainings and seminars for young mothers and adolescent girls of higher secondary schools and colleges of Harhua Block. The trainings included Health & hygiene, right based approach to life, Physical Change, Equality in family and in society, etc. The project reached out 1250 adolescent girls and young mothers and enriched them. Also formed 13 health clubs in these respective villages of intervention. These groups will play a role of information sharing to all the people who need help.

- ★ 10 Trainings on Health Education among Adolescent Girls
- ★ 1250 adolescent girls and young mothers are trained
- ★ 13 Health clubs are formed in villages

## Awareness Programme through Street Plays

13048 are reached out through 72 street plays covering the issues of Child marriage, corruption, and gender equality etc.

More than 5000 people are reached out through Wall writing and poster displays

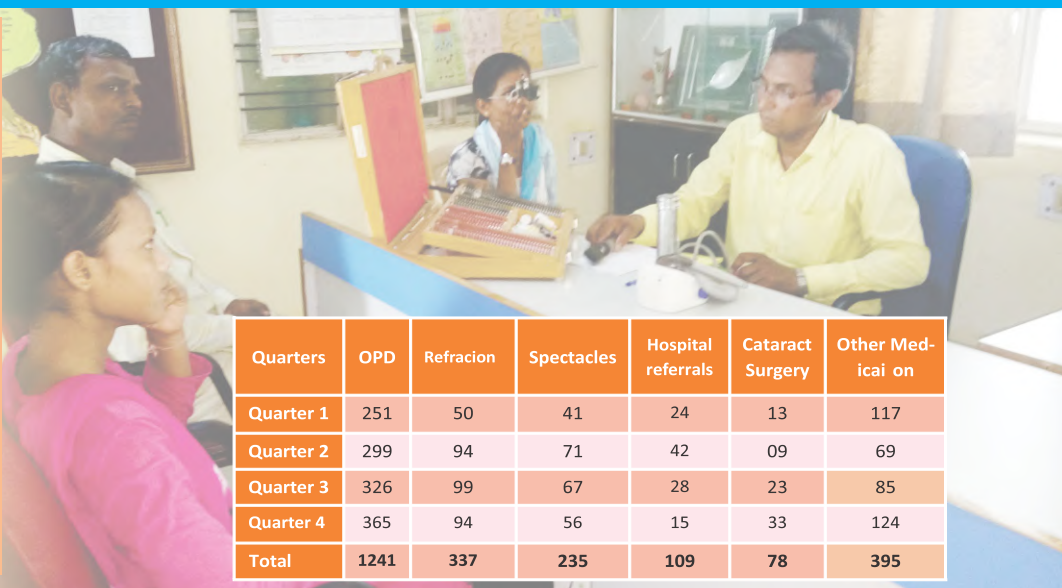

The Street Play of JVS has reached out to 13048 people in the Harhua Developmental Block through the medium of street plays. Some of these issues include cleanliness, hygiene, child labor, child marriage, corruption, educational awareness among rural children, child rights, road safety, etc. We also have succeeded in reaching out to more than 5000 persons through wall writing and poster displays in 15 Panchayats.

## Special Awareness on Tuberculosis

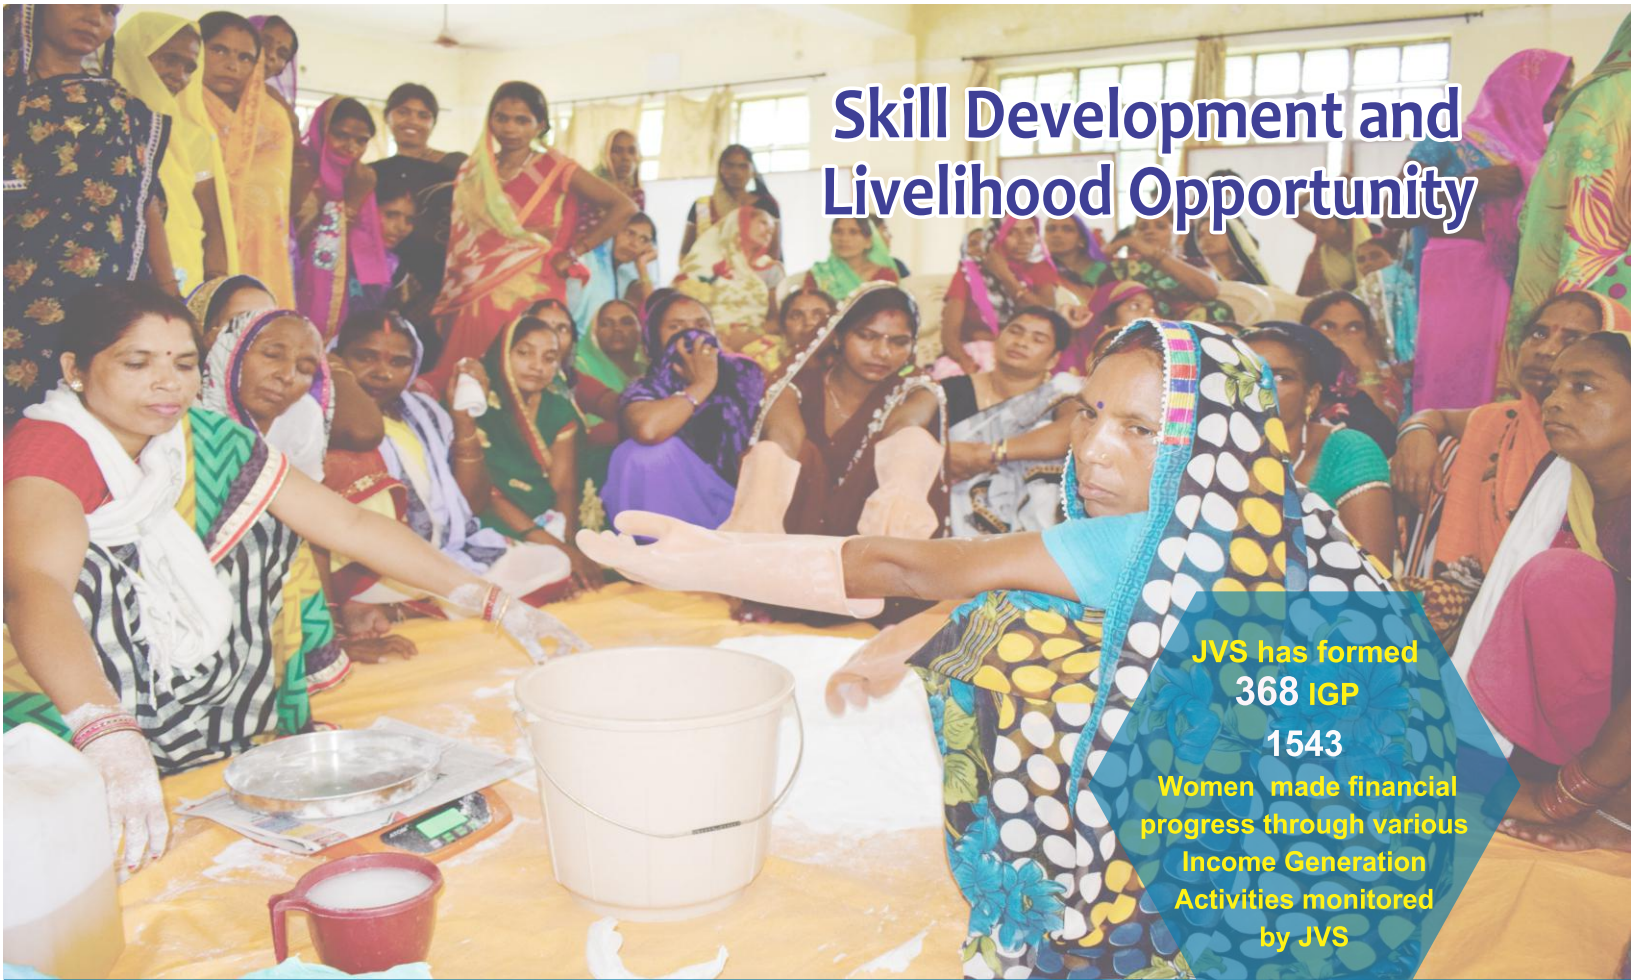

Working for the cause of eradicating Tuberculosis (TB). JVS has succeeded in reaching out to 2300 families through survey. The primary objective of the effort is to go to the door-step of these marginalized and vulnerable communities to spread awareness about this infectious disease, its symptoms, diagnosis, treatment, and Revised National Tuberculosis Control Programme (RNTCP) services and tell them how to avail these services in case of need. In the process, we link the identified TB symptomatic to RNTCP services by referring them and even collecting and transporting the sputum samples to the nearest Designated Microscopy Centre.

## Netradeep Vision Centre

**Netradeep Vision Centre** is a initiative by JVS to help the poor people of Harhua and Pindra to have affordable, accessible, free eye check and treatment with minimum expenditure. During the year 2017-18 JVS Examined 2500 eye patients with eye check-up and provided spectacles to 235 and free cataract surgeries were undertaken in collaboration with St. Mary's Hospital, Varanasi.

 Women made financial  
 progress through various  
 Income Generation  
 Activities monitored  
 by JVS

## Livelihood Programmes through Income Generation Programme (IGP)

JVS promotes economic independence of women through micro savings/credit and micro enterprises and Presently having 404 SHGs formed and 368 SHGs are engaged in income generating activities. JVS has played a proactive role in assisting women to set up micro-enterprises in their own local areas. The SHGs are involved in poultry farms, vegetable cultivation, general store, animal husbandry, making garlands, incense sticks, petty shops etc. The groups have begun to produce paper plates and washing powder and they market their own products in the local vicinity. The efforts of women have affirmed their own identity in the family and in the community that considers women inferior in the society.

## Inclusive Livelihood Programs for PwDs

The concept of equal opportunity is still a distant dream to be achieved in our society. Jan Vikas Samiti has played an important role to capacitate the youngsters with on job training and skill development trainings to compete with the non-disabled for job placements. Seventy four youngsters received requisite trainings like diploma in computer application, training in hospitality management, mobile repairing courses, tailoring, craft making, BPO training, detergent powder making, etc.

## Partners' Meet cum CBR Management Training

Jan Vikas Samiti organized a partners' meet for its 49 Partner Organizations of North India at Anjali, Varanasi in two batches dated from 24<sup>th</sup> to 26<sup>th</sup> July and 27<sup>th</sup> to 29<sup>th</sup> July 2017 which had 95 participants. The purpose of the programme was to update partner organizations about the new partnership/intervention strategies of JVS-LF and orient the partners with new strategic approach from IBR to CBR. Dr. Bhushan Punani, Executive Secretary - Blind People Association Ahmadabad was the resource person for the said programme.

## LINC-Asia -A New Venture to Inclusive Education

LINC-Asia, the Inclusion network is part of the global Liliane International Network Community (LINC), consists of 6 Asian SPOs of Liliane Foundation, the Netherlands. It envisions to strive for an inclusive society that protect and promote right of children in a dignified manner. The network aims to strengthen the capacity of its members and to unite the members in achieving the objectives, especially in the field of learning, advocacy and resource mobilization. JVS together with 03 of its partner organizations conducted Accessibility Audit in 12 Govt. (Primary & Secondary) schools in UP and Bihar.

## Training on Results Framework and Institutional Fundraising

Training on Results Framework and Institutional/Local Fundraising was organized by Liliane foundation for its SPOs in Asia from 21<sup>st</sup> to 25<sup>th</sup> August at Norfil Foundation, Manila, Philippines. Sixteen participants from six Strategic Partner Organizations (SPOs) of India, Indonesia, Bangladesh, Philippines and Vietnam, attended the training. The training was aimed primarily to capacitate the organizations on branding and fundraising. The first two days of the training focused on results framework and during the last three days the participants were oriented on institutional fundraising.

## Collaboration with MIVA-LF

JVS has the opportunity to support their partner organizations with the means of transportation and communication through JVS-LF in collaboration with MIVA. JVS has been able to support 15 partner organizations with means of transportation and 3 partner organizations with means of communication, linked with JVS-LF programme.

- 15 Partner organizations are supported for transportation

## RAISE- Regional Action on Inclusive Education

Regional Action on Inclusive Education (RAISE) North East consists of 15 partner organizations in 5 states (Assam, Meghalaya, Manipur, Nagaland and Tripura) of the North East India. RAISE, aims to ensure that improved enrolment, retention and quality education for children with disabilities in north and northeast India. There is a paradigm shift in the thinking of teachers about IE. The project is all set to initiate the full pledged set up of inclusive education in government schools.

# Women Empowerment

## SHG Involvement for Positive Change

Since 1998 Jan Vikas Samiti has been instrumental in forming and strengthening the self help groups. We have been in the forefront to change the role of women in the family and community. SHGs have been an effective tool to bring them together to strengthen, to unify, and capacitate women on leadership quality and guided to know of their rights, thus create a difference in their lives. As an outcome of our efforts, now they are strengthened and able fight against the widespread social stigma and have become successful in changing the situation, especially through greater financial independence.

JVS mobilized  
5245 women  
through 404 SHGs  
with a total saving of  
₹ 1, 73, 13,983.00

## Entitlements of Rights of Families Living Below Poverty Line by CBOs and Federations

Over the years, JVS has been trying to create an environment of greater independence and interdependence through economic and social policies for the overall development of women and to enable them to realize their full potential as individuals and to help them have equal access and participation in the social, political and economic life of the society. JVS has also formed CBOs and Federations, aiming to raise the awareness level of the members and other villagers through regular meetings and discussions. A series of capacity enhancement trainings of these groups enkindle the fire within them to fight to avail their rights. The CBOs and Federations have done a tremendous work to entitle the most disadvantaged families with their basic rights.

282 SHGs Digitalized

## Digitalization of SHGs

JVS mobilized and organized women from excluded and marginalize communities in Harhua and Pindra in Varanasi, Shikad Block in Mirzapur, Pasgoan in Lakkimpur Kheri to provide formal channels for social change and financial support. Revitalizing the Self Help Group movement, Jan Vikas Samiti join hands with NABARD aimed towards digitalizing the SHGs to make them more transparent in their functioning and accountable. Two hundred and eighty two SHGs monitored by JVS is digitalized and are entered in the portal.

## New Initiatives

### Sahya-a Special Project on HIV AIDS Awareness

The project Sahya is yet another feather on the cap of JVS as it has stepped into a new dimension of approach to make a healthysociety. The goal of project Sahya is to contribute towards the national goal of 90-90-90 targets through (1) online based interventions, (2) Community Based HIV Screening (CBS) of High

Risk Groups HRGs<sup>2</sup> and At-Risk Groups (ARGs)<sup>3</sup>, and (3) HIV screening of the female partners of HRGs and ARGs. The project seeks to leverage current test-and-treat paradigms to maximize immediate/early ART initiation for individuals testing HIV positive, to reduce disease progression and further viral transmission.

## Samaveshi Shiksha- Samaveshi Samaj- Project for Inclusive Education

Children with Disabilities (CwDs) are among the most excluded as they unceasingly manage their daily life chores in their challenging conditions without adequate social and family support. There is a growing realization that it is the need of the hour, to link CwDs with non-disabled children for developing a psychosocial bonding, peer learning, interaction and interpersonal relationship. Taking a leap into the new mission Jan Vikas Samiti in collaboration with Liliane Foundation aims to ensure inclusive education to CwDs.

The goal of the Project is **“to prepare Governmental primary schools & other formal schools to accept diverse educational needs of Children with Disabilities (CwDs) and increase enrolment rate and learning level of CwDs and reduce dropout rate by ensuring accessible and modified teaching and learning methods (TLMs) to deliver quality education”**. The intervention is proposed initially in 3 districts (Lucknow, Barabanki and Sitapur with 12 govt. primary schools) for a time frame of 3 years (2018-2021) in the first phase.

## Sambhav (Telemedicine)

**'Reach to the unreached, make Rehabilitation possible' is a joint dream project** of Jan Vikas Samiti - Liliane Fonds and Groot Klimmendaal **to provide rehabilitation services to the remote locations of the country**. The Project Sambhav aims to capacitate CBR facilitators on rehabilitation diagnosis, making custom made treatment/rehabilitation plans and providing appropriate therapies to the children and youth with disabilities who are most in need in the rural parts of North and Northeast India.

## Hygienic and Healthful Living

The project “Hygienic and healthful living” (WASH) aims to improve the sanitation and hygiene in 30 villages of Kaimur District, Bihar. More specifically, the project aims to modify the existing toilets in 25 government schools as well as to construct and modify toilets for 50 individual households in Durgavati block of Kaimur District.

The overall strategy of “Hygienic and healthful Living” is centered on infusing the recognition of Sanitation needs of most disadvantaged girls in the existing national sanitation programme, of “Swachh Bharat Abhiyan” of the Government of India in the proposed area.

## Visit by Funding Agency

### *Monitoring Visit by Manos Unidas*

Mrs. Anne Laure and Nicoletta De Mattheis from Manos Unidas, Spain visited Jan Vikas Samiti. The Donors were with us on November 15-2017 to monitor the project supported by Manos Unidas. They were welcomed with warmth by JVS team and

were shown the details of the implemented projects and their queries were clarified. The visitors were taken to the field. They were pleased to witness the income generation activities and the Community Health Programmes implemented by JVS. A short gathering by the stakeholders added joy to the visit. They were very much elated to see women performing street plays. They also appealed the women to educate their children which will change their identity.

## Welcome and Adieu

Jan Vikas Samiti is overwhelmed with joy to welcome Rev. Fr. Chetan IMS to Jan Vikas Samiti as the new Director to lead the organization. Fr. Chetan is a visionary and a pioneer, who has been in the forefront of social work, especially in leading domestic workers' movement across the country. JVS family welcomes the veteran and strongly believes that JVS is going to scale greater heights under his vibrant leadership.

Jan Vikas Samiti will ever remain grateful to Rev. Fr. Alexander Philip IMS, who journeyed with the organization for the last 12 years. He served Jan Vikas Samiti as national coordinator and country representatives of JVS-LF project “Inclusive development for children and youngsters with disabilities” for 8 years and 4 years as the Director of the organization. Your contributions to JVS are certainly beyond measure. As we bid adieu to his, we wish him all the very best for his mission ahead.

## Failures were the Stepping Stones to Success

Chandrawati is a young talented girl of Kannaudi village in Varanasi District of UP. She belongs to a family of 9 members. She lagged behind others and was given least importance in the family because she was born as a child with special needs. The disability of hunch back added more stigma to her life and everyone in the family negated her and wished to get rid of her from the family.

Through a survey she was identified. A medical assessment helped with the right diagnosis. The stereotyped understanding of the parents delayed the process of intervention for the child. The regular home visit and motivation helped them to enroll the child for educational intervention. Change in the family atmosphere and perception helped Chandrawati feel at home in the family.

Studying in a regular school, she had become victim to discrimination, rejection etc. but every negative inhalation was healed by the aid of the project counselling. With determination and grit, she completed her secondary school (12<sup>th</sup>) examination with first division. This incident shocked her parents since none of their children had scored the marks that she scored.

This made them take greater interest in her growth they cooperated with the project for her further studies and she successfully completed her higher secondary. To capacitate her abilities she was helped to learn DCA. An On-job-training in hospitality industry helped Chandrawati to help herself better. She mastered the art of Coffee making and proved herself as a mock tails specialist. Now she is known for her delicious Mock tails and coffee brewing's in Hotel Petu, Varanasi. She earns a handsome amount (9000 per month) to make her future more assured.
